As many are aware, we are currently experiencing issues with our compactor at the Transfer Station. The compactor, which is owned and maintained by Essex County, is getting old and is not working efficiently. The county is actively working on acquiring a new unit.

In the meantime, we are making every effort to keep the facility open and continue to accept trash.

We are collaborating with the county to ensure that dumpsters are available for use.

We appreciate your patience as we await our new compactor.
